PROGRESS REPORT 3

Team Anki

Dillon Gee, Jazmyynn Daos, Kyla Lamontagne, Vamsi Koduru, and Wilbur Chen

What? For who? Why?

- **What?** Anki flashcard sharing website for UCI School of Medicine
- **For Who?** UCI medical students
- **Why?** Building a community for the medical students and providing study resources for incoming students

Last Two Weeks

WEEK 7

- Created second version of mockups for client
- Met with Client - decided to add 'moderators' to design
- got the correct access to our development space
- Discussed how to read and store Anki files

WEEK 8

- Set up CakePHP in development space
- Populate database
- Begin coding basic capabilities (uploading/downloading)

Difficulties

- Clients constantly changing requirements
- Setting up CakePHP on development space
- Struggled with figuring out how to put everything together
- Having a hard time figuring out where to start

Next Two Weeks

- Continue Week 8 tasks
- Create AnkiShare web interface
- Troubleshoot any problems with use cases
- Practice presenting the initial website to Prof Hadar, Six, and our clients
