PROGRESS REPORT 4

Team Anki

Dillon Gee, Jazmyynn Daos, Kyla Lamontagne, Vamsi Koduru, and Wilbur Chen

What we did this quarter so far

- Elicit requirements from client
- Help customer develop their vision
- Mockups
- Set up server/database
- Got a “Hello World” up on website

Main challenges

- Lack of experience with servers and frameworks
- Requirements unclear/changing

Greatest Achievements

- Technical
 - Have a “Hello World” up
- Non-Technical
 - Agreed to not hesitate in asking questions, no matter how embarrassing.

The rest of the quarter as a group

- Finish setting up server/database
- MVP
 - Basic web application with upload/download capabilities for decks
- Prepare to work over the summer
 - Communication plans
 - Work distribution plan for summer

The rest of the quarter individually

- Code
 - Ruby on Rails
- Get more familiar with using Ruby on Rails

The Summer as a group

- Prepare for August prototype
 - Upload/Download
 - Sorting capabilities
 - Login
 - User Testing

The Summer individually

- Communicate
 - Teammates
 - Clients
- Personal tasks
 - Code
 - Do user tests

Fall Quarter as a group

- Receive feedback from new med students
- Code and implement moderators
 - Best card sorting

Thank you
